

## Building Chatbot And Integrate To Application

Date	02 November 2022
Team ID	PNT2022TMID44541
Project Name	Smart Fashion Recommender Application

## BUILDING CHATBOT:

The screenshot shows the IBM Watson Assistant console interface. The top bar displays the project name 'HOSPOTIAL' and the 'Learning center' link. The left sidebar contains navigation options: 'Actions', 'Variables', and 'Saved responses'. The main area shows the 'Actions' tab with a table of actions created by the user. The table has columns for 'Name', 'Last edited', 'Examples Count', and 'Status'. There are three actions listed: 'Hai', 'Male', and 'Female'. Each action has a status of 'Success' (indicated by a green checkmark) and a count of 1 example. The 'Last edited' times are '2 hours ago', '38 minutes ago', and '21 minutes ago' respectively. At the bottom right, there is a 'Preview' button.

Name	Last edited	Examples Count	Status
Hai	2 hours ago	1	Success
Male	38 minutes ago	1	Success
Female	21 minutes ago	1	Success
